**Form B: Degree-Level Assessment Plan**  
**As of 11/2014**  
**Department/School: HA/CLAS**  
**Degree: PhD**

**Student Learning Outcomes** (Student learning outcomes are what students are expected to know and be able to do when they graduate. Questions like “What should students know? What should they be able to do? How should students do so?” help define student learning outcomes.)

After graduation, students will be able to:

1. Demonstrate mastery of primary sources and secondary literature in the dissertation area
2. Demonstrate clarity of methodological/theoretical structure/approach
3. Produce a dissertation that conveys original and significant conclusions
